The previous Editor in Chief was Prof. Dr. Barış Nuhoğlu

İstanbul YeniYüzyıl University, Gaziosmanpaşa Hospital Head of Department of Urology  
(The editor-in-chief duty, which started in September 2011, was transferred to Ömer N Develioğlu in March 2016)

## Aims and Scope

Journal of Academic Research in Medicine (JAREM) is an open access international journal published in both Turkish and English and complies with independent and unbiased double-blind reviewing procedures. The journal publishes research in the fields of experimental and clinical medicine, case reports, reviews on recent topics, letters to the editor, and other manuscripts on medical education. The journal is published three times per year; in April, August, and December. The journal is funded by University of Health Sciences Turkey Gaziosmanpaşa Training and Research Hospital.

The aim of JAREM is to publish research on recent topics at an international level. Moreover, reviews, editor's note, case reports and images are also published in the journal. The target audience of readers and authors is composed of educators, academics, researchers, specialists and general practitioners, and all publication process and procedures comply with the standards of ICMJE, WAME and COPE. JAREM is indexed in Web of Science-Emerging Sources Citation Index, TUBITAK ULAKBIM TR Index, EBSCO, CINAHL and ProQuest.

### Subscription / Permissions / Advertisement

Free full-text copies of the printed manuscripts are available online at [jarem.org](http://jarem.org). For subscription to the printed copy, applications for copyright permissions and announcements should be made to Editorial office.

### Instructions for Authors

Instructions for Authors page is available in the printed version or can be accessed at [www.jarem.org](http://www.jarem.org).

### Material Disclaimer

Published content of JAREM is in authors' own responsibility. University of Health Sciences Turkey Gaziosmanpaşa Training and Research Hospital, editors, employees and the publisher do not accept any financial, legal or any other liability for the published material. The journal is printed on acid-free paper.

## Instructions to Authors

Journal of Academic Research in Medicine (JAREM), as an open access journal with double-blind reviewing process, publishes experimental, basic and original researches conducted in the field of medical sciences; post-graduate training reports, case reports, and articles on history of medicine, and publication and research ethics. Reviewers whose opinions are of priority in the decision of approval are selected by the editors among independent local and international individuals that have specialized on their respective fields. The journal is published three times per year; in April, August and December.

An approval of research protocols by an ethical committee in accordance with international agreements (Helsinki Declaration of 1975, revised 2008-<http://www.wma.net/en/30publications/10policies/b3/index.html>, "Guide for the care and use of laboratory animals - [www.nap.edu/catalog/5140.html](http://www.nap.edu/catalog/5140.html)) is required for experimental, clinical and drug studies.

All submissions must be accompanied by a signed statement of scientific contributions and responsibilities of all authors and a statement declaring the absence of conflict of interests. Any institution, organization, pharmaceutical or medical company providing any financial or material support, in whole or in part, must be disclosed in a footnote (ICMJE Disclosure Form for Potential Conflict of Interest(s)).

Manuscript format must comply with the ICMJE-Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals (updated in December 2018 - <http://www.icmje.org/icmje-recommendations.pdf>).

The presentation of Original Researches and Reviews must be designed in accordance with trial reporting guidelines: randomized study-CONSORT, observational study-STROBE, study on diagnostic accuracy-STAR, systematic reviews and meta-analysis PRISMA, animal experimental studies-ARRIVE, nonrandomized behavioural and public health intervention studies-TREND.

An approval of ethic committee or an equivalent acceptance letter prepared by the officials of the institution in accordance with general ethics is mandatory for Original Research and even for some of the Case Reports. The concept and suggestions presented in the manuscript are the sole responsibility of the authors and do not reflect the opinions of Editor and his/her associates.

Manuscripts sent for publication must not have been previously published elsewhere. Abstracts that have been previously presented in scientific congresses and not exceeding 200 words can be accepted providing the explanation of the condition.

Withdrawal requests without a reasonable cause for papers approaching decision process are "rejected". First author of the manuscripts accepted for publication agrees that corrections both in English and Turkish versions are to be made by the Editors on condition that this will not cause a major change in the document.

Citation potential, being original and having high scientific and academic value are prerequisite for the acceptance of manuscripts for publication.

### General Terms

Manuscripts can only be submitted through online manuscript submission system at [www.jarem.org](http://www.jarem.org). Rejected manuscripts are not returned to authors except artistic pictures. All papers are reviewed by Editor being in the first place, Editor Consultant and associates, statistical consultants and by at least two reviewers. It is particularly important for the journal that first author suggests three individuals as reviewers who are reputable on the subject and who are not related to and unaware of the authors and their institutions.

Editor decides whether the paper conforms to the style stated below before sending the manuscript to the reviewers. Corrections must not be made on original text and must be restricted with the sections requested for revision. Any spelling or drawing errors must be corrected before sending the manuscript to the reviewers.

Articles not conforming to the instructions will not be taken into consideration.

### Research Articles

**1. Original Research:** Full text of the paper should not exceed 5000 words and should include tables and graphs in sufficient number and content to allow understanding. Number of

references being less than 50 is sufficient for plausibility. Number of authors should be limited to 5 with original articles. When there are more than 5 authors the editorial board should be informed about the justification of this situation by the corresponding author.

**1.1 Title page:** It is the first page of the manuscript and prepared separately as MS Word document. It must include full names of the authors; highest academic degrees and the title of the article not exceeding 50 characters. Affiliations of the authors, departments and city names must be stated in order. Studies conducted in more than one centre must be marked with symbols. Full name, postal and e-mail addresses, phone and fax numbers of the author responsible for correspondence and corrections must be stated at the bottom of this page. It must be also explained if the study was previously presented in a scientific congress in accordance with aforementioned terms or if the abstract was published.

**1.2 Structured abstract for original research article:** The abstracts should contain the objective of the study, its type, the results, in sum, conclusion of the study without exceeding 250 word limit.

Abstracts must be structured as to include subheadings of Objective, Methods, Results and Conclusion.

At least 3, at most 6 keywords compatible with NLM MESH terms should be included following abstract (<http://www.nlm.nih.gov/mesh/MBrowser.html>).

**1.3 Text:** The text must include; Title, Introduction, Methods (with subheadings), Results, Discussion, Limitations of the study, Conclusion, and References. It may be useful to divide methods, results and discussion sections into subheadings. The text must not exceed 5000 words and should be written in Times New Roman, 12 point font. If acknowledgements will be included at the end of the manuscript, those contributed to the conduction of the study or assisted in finalizing the document are mentioned apart from those having substantial scientific contribution. This information must be sent by e-mail or uploaded to the system in a separate MS Word document with the name of "Acknowledgements".

**1.4 Statistical Analysis:** Analysis must be performed in accordance with statistical data reporting rules in medical journals (Altman DG, Gore SM, Gardner MJ, Pocock SJ. Statistical guidelines for contributors to medical journals. *Br Med J* 1983; 7; 1489-93). Software used in statistical analysis must be stated. If parametric tests are used for the comparison of continuous variables, data must be presented as mean±standard deviation. For non-parametric tests, Median (Minimum-Maximum) or Median (25th and 75th percentile) values must be indicated. In advanced and complicated statistical analyses, relative risk (RR), odds ratio (OR) and hazard ratio (HR) must be supplemented with confidence intervals (CI) and p values.

**1.5 References:** References should be numbered consecutively in the order cited in the text and are typed in a separate page. Inaccessible references such as personal information, unpublished data, "in press" are not typed in the references section but cited in parenthesis within the text. Abstracts published two years ago are not included in references; if included, they must be written as (abstr.) in parenthesis. Authors are responsible for the accuracy of the references. While citing publications, preference should be given to the latest, most up-to-date publications. Authors should avoid using references that are older than ten years. The limit for the old reference usage is 15% in the journal.

### Journals

Journal names must be abbreviated according to the list of Index Medicus/Medline/PubMed (the list of MEDLINE journals and their abbreviations published annually by NLM can be accessed at <http://www.nlm.nih.gov/tsd/serials/lji.html>). All author names are listed for articles having less than 6 authors. If the article contains 7 or more authors, names of the first 6 authors are written and followed by "et al.". Names of the authors are followed by the title of the manuscript, year, volume and page numbers.

**Example:** Müller C, Büttner HJ, Petersen J, Roskomun H. A randomized comparison of clopidogrel and aspirin versus ticlopidine and aspirin after the placement of coronary-artery stents. *Circulation* 2000; 101: 590-3.

## Instructions to Authors

### Books

Section in a book: Sherry S. Detection of thrombi. In: Strauss HE, Pitt B, James AE, editors. Cardiovascular Medicine. 2nd ed. St Louis: Mosby; 1974. p.273-85.

Book with single author: Cohn PF. Silent myocardial ischemia and infarction. 3rd ed. New York: Marcel Dekker; 1993.

Editor(s) as author: Norman IJ, Redfern SJ, editors. Mental health care for elderly people. New York: Churchill Livingstone; 1996.

Article presented at a meeting: Bengtsson S, Sotheman BG. Enforcement of data protection, privacy and security in medical informatics. In: Lun KC, Degoulet P, Piemme TE, Rienhoff O, editors. MEDINFO 92. Proceedings of the 7th World Congress on Medical Informatics; 1992 Sept 6-10; Geneva, Switzerland. Amsterdam: North-Holland; 1992. P. 1561-5.

Scientific or technical report: Smith P, Golladay K. Payment for durable medical equipment billed during skilled nursing facility stays. Final report. Dallas (TX) Dept. of Health and Human Services (US). Office of Evaluation and Inspections; 1994 Oct. Report No: HHSIGOE 169200860.

Thesis: Kaplan SI. Post-hospital home health care: the elderly access and utilization (dissertation). St. Louis (MO): Washington Univ. 1995.

### Manuscript in electronic format

Morse SS. Factors in the emergence of infectious diseases. Emerg Infect Dis (serial online) 1995 Jan-Mar (cited 1996 June 5): 1(1): (24 screens). Available from: URL: <http://www.cdc.gov/ncidod/EID/cid.htm>.

**1.6 Figures, Tables and Pictures:** Figures and images must be prepared as not to include names of the patient, doctor and the institution. They must be provided separately from the document and numbered according to their sequence within the text. Legends and footnotes are typed in a separate page. The drawings in the graphs must be in sufficient thickness. Therefore, loss of detail will be minimal while zooming out. The width should be maximum 9 or 18 cm. It may be useful if the drawings are made by professionals. Grey colour should not be used. Abbreviations must be defined below in alphabetical order. Roman numbers should not be used in Tables and Figure Captions and in the citation of the tables within the text. Decimal numbers in the text, Tables and Figures must be given with a point. The tables should be prepared to make the text more explanatory and understandable and should not repeat the text.

### Video Images

In addition to images in the Case Reports and Original Images; video images/motion pictures, extra images/static images will be published at our website if they comply with the following technical requirements.

1. Presentations in image/static image format: JPG, GIF, TIFF, BMP
2. Video images/motion pictures: MPEG, VMF.
3. File size must be maximum 2 MB.
4. Names of doctor, institution, city, and patient and descriptions in the images and particularly in video images must be deleted before sending.

Originality of the tables, figures and images in your manuscript must be stated. If a material is used from another source, either the original source or a source citing the original one, the source must be cited; hardcopy or electronic versions must be obtained from Copyright owner (publication house, journal or author) and presented to the Editor in Chief with the permissions. Terms relevant to the references, figures and tables are applicable to all types of articles

### Specific Sections

**2. Reviews:** Can be prepared by the invited authors upon decision of the Editorial Office. An information or a subject must explain, discuss, and evaluate the latest level that has been reached and must be at a particular degree directing the future studies in order to be used

in clinic. The author must have a high reputation in his/her field and must have published manuscripts that have been cited.

Unstructured abstract: Word counts determined for research articles are also applicable herein but they will be unstructured. At least 3, at most 6 keywords compatible with NLM MESH terms (available at <http://www.nlm.nih.gov/mesh/MBrowser.html>) should be included following abstract. They are limited to 5000 words and 50 references.

**3. Editorial Note:** The purpose of editorial note is to make brief evaluation of the published research by reputable authors on that particular field or by reputable reviewers. Clinical significance and short summary is included at the end of the text.

**4. Case Reports:** Intriguing and informative case reports including very rare conditions even for other authors or those representing challenges in the diagnosis and treatment or overlooked conditions in practice or those offering new therapies, involving information that are not even present in the textbooks can be published in the journal. Such case reports are published in limited numbers. Those containing video images have higher chance of publication. Number of references is limited to 10 and the text is limited to 700 words. The abstract should be unstructured and should not exceed 250 words. The manuscript should include minimum 3 and maximum 6 keywords which conform to Medical Subject Headings (MeSH) terms prepared by National Library of Medicine (NLM). Case report contains the subheadings of Introduction, Case Presentation, Discussion and Conclusion. Number of authors should be limited to 3 with case reports. When there are more than 3 authors the editorial board should be informed about the justification of this situation by the corresponding author.

**5. Scientific Letter:** Manuscripts that aim to announce scientific discoveries and data or preliminary reports that are of clinical significance are accepted for publication as scientific letter. Scientific letters do not contain subheadings and should not exceed 900 words. Number of references should be limited to 10 and the number of tables and figures should be limited to 2.

**6. Letters to the Editor:** Are one of the major aims of publication of the journal. The significance of a published manuscript or overlooked or missed aspects are discussed. Apart from letters commenting on the published manuscripts, authors can present their comments on subjects attracting the readers' interest or on educational cases in the form of Letters to the Editor. Number of references should not exceed 5 and the text should be limited to 500 words; the text does not contain subheadings.

**7. Education:** Scientific knowledge that has been proved with the results latest research, that set out in academic training, and that taken a place in clinical practice is presented in details.

Unstructured abstract: Word counts determined for research articles are also applicable for this section; but this will be unstructured. At least 3, at most 6 keywords compatible with NLM MESH terms (available at <http://www.nlm.nih.gov/mesh/MBrowser.html>) should be included following abstract. The text should be limited to 5000 words and number of references is limited to 50.

**8. Original Images:** Striking and rare images reflecting important findings in clinical sciences, shedding light on basic mechanisms of the diseases, emphasizing the abnormalities or revealing new treatment methods are accepted for publication. Those containing video images have higher chance of publication. Figure caption, legends, and footnotes (without reference) should not exceed 250 words.

**9. Historical Notes:** Historical notes are the articles that enlighten important events in the history of medicine and elucidate new information on the historical progress of the diagnosis and treatment of diseases. New historical discoveries must be the results of appropriate researches conducted on the subject. The content of historical notes should not contain subheadings and be limited to 900 words and 10 references.

**10. Publication Ethics:** Articles providing contemporary information and comments on publication ethics and cases of violation of ethics are published in this section of the journal. The text is limited to 900 words and the number of references is limited to 10.

## Contents

### Review

- 208** Urethral Stenosis and Urethroplasty in Male Elderly  
Ali Ayyıldız; Adıyaman, Turkey

### Original Investigations

- 214** Role of Red Cell Distribution Width in Evaluation of Inflammatory Bowel Disease Activity  
Deniz Ögütmen Koç, Murat Keğın; İstanbul, Turkey
- 220** Congenital Urinary System Anomalies: Prenatal Diagnosis/Postnatal Outcome  
Miraç Özalp, Hatice Sonay Yalçın Cömert, Ömer Demir, Hidayet Şal, Turhan Aran, Mehmet Armağan Osmanağaoğlu; Trabzon, Turkey
- 227** Visual Evoked Potentials in Euthyroid Hashimoto's Thyroiditis  
Hakan Şilek, Rengin Bilgen, Bahar Erbaş; İstanbul, Turkey
- 232** Rare Factor Deficiencies: A Retrospective, Single-center Cohort Study  
Nilgün Eroğlu, Erol Erduran, Ayşenur Bahadır, Haluk Saruhan; Trabzon, Turkey
- 237** Comparison and Analyses of Intraoperative Consultation and Paraffin Section Responses of Ovarian Lesions  
Elife Kınıloğlu, İrem Yanık, Özgecan Gündoğar, Sibel Bektaş, Süleyman Salman; İstanbul, Turkey
- 241** Optimal Target in Deep Brain Stimulation for Parkinson's Disease: Comparison of Atlas and Magnetic Resonance Imaging-based Stereotactic Targeting  
İdris Sertbaş; İstanbul, Turkey
- 246** Comparison of COVID-19 Case-Fatality-Rates by Socio-Demographic Factors  
Esra Keleş Peker, Güven Bektumur, Kürşad Nuri Baydili, Melek Aktaş; İstanbul, Turkey, Rennes, France
- 252** Relationship Between Vitamin D, Calcium, and Phosphorus Levels  
Burcu Çaykara, Güler Öztürk, Hacer Hıcran Mutlu, Ebru Arslan; İstanbul, Turkey
- 258** Association of Attention Deficit Hyperactivity Disorder Symptoms of Parents with Parental Attitudes  
Mehmet Çolak, Özlem Şireli Bingöl, Zeynep Esenkaya Usta, Birim Günay Kılıç; İzmir, Muğla, Konya, Ankara, Turkey
- 264** Retrospective Evaluation of Patients Undergoing Cardiopulmonary Resuscitation in the Emergency Department  
Ertuğrul Altınbilek, Mustafa Çalık, Miray Tümer, Ahmet Burak Erdem, Derya Öztürk; İstanbul, Ankara, Turkey
- 269** Follow-up for Patients with Intestinal Metaplasia Restricted to the Antrum  
Deniz Ögütmen Koç, Sadettin Hülagü, Yeşim Saliha Gürbüz, Altay Çelebi, Ali Erkan Duman, Tanyeli Güneyligil Kazaz; İstanbul, İzmit, Gaziantep, Turkey
- 277** Reliability and Validity of the Turkish Version of the Questionnaire for the Assessment of Self-Reported Olfactory Functioning and Olfaction-Related Quality of Life  
Özlem Saatçı, Özge Arıcı Düz, Aytuğ Altundağ; İstanbul, Turkey
- 283** Relationship of Endometrial Polyp Prediction with Clinical and Demographic Findings  
Dilşad Herkiloğlu, Şefik Gökçe, Pınar Göksedef, Canan Kabaca, Gülhan Sağıroğlu; İstanbul, Turkey

## Contents

---

- 288** Comparative Evaluation of the Effects of Short-Wave Diathermy, Ultrasound, and TENS on Pain and Physical Functions in Knee Osteoarthritis  
Betül Başar, Belgin Erhan; İstanbul, Turkey

## Case Reports
